

CASE STUDY

+ Main Reception

DHLE
Andheri-E, Mumbai.

CEO Cabin

Meeting room

Brief:

DHL Express is a division of the world's largest German logistic company 'Deutsche Post DHL', providing international express mail services, operating around the world, presence in over 220 countries and territories, with a workforce exceeding 325,000 employees. DHL is a world market leader in sea and air mail. This project was the relocation of their Bandra office set-up to Andheri on design & build model.

Location:

5,6,7,8th Floor, Silver Utopia, Cardinal Gracias Road, Andheri East, Mumbai, Maharashtra 400059.

Area:

60,000 Sq Ft.

Tiolet

Cafeteria

Concept:

Concept was to plan an open office work space with modular furniture, standard offices and low height partitions to facilitate collaborative work environment and better communication whilst ensuring effective use of natural light to support the green building initiative.

Challenges:

DHL believe that environmental protection and business success are not just compatible, they are closely interlinked. Thus, project complies with Green Building norms and hence preparing submission for the coveted Leadership in Energy and Environmental Design in Design (LEED) certification. Completion of fit-out works in totality within 90 days.

Uniqueness:

Uniqueness of this project lies in its careful & efficient planning of office space & its services. Use of grid lines to create spaces which can be easily modified as per requirement of the future.
